Senior secondary

Number: 011/23

## New resources for senior Mathematics subjects and courses

### Purpose

To notify schools about new resources to assist teaching, learning and assessment for senior Mathematics subjects and the Short Course in Numeracy.

### Information

#### General and Applied (Essential) subject resources

In the QCE system, internal assessments for General and Applied (Essential) subjects must be endorsed before use.

To assist schools to prepare for endorsement, the QCAA has developed short presentations about each General Mathematics subject and Essential Mathematics. Each presentation addresses a single aspect of writing assessments that meet the requirements for endorsement.

The resources are available in the Syllabus application in the [QCAA Portal](#):

1. Choose the appropriate subject, such as selecting Learning area > Mathematics > General Syllabuses click on General Mathematics 2019 v1.2.
2. Click on **Resources > Units 3 and 4** and then scroll down to the new **Maths moments** section.

#### Short Course in Numeracy resources

Ten new resources have been developed to assist schools to implement the QCAA Short Course in Numeracy. These comprise:

- teaching, learning and assessment plans that show an alternative method for organising the learning experiences with a context focus
- sample assessment instruments
- sample student template for an oral presentation
- sample student template for learning journals.

The resources are available in the Syllabus application in the [QCAA Portal](#):

1. Under Learning area > Mathematics > Short Course Syllabuses click on Numeracy 2018 v1.1.
2. Click on **Resources**.

## What you need to do

Please share the above information with teachers of senior Mathematics subjects and the Short Course in Numeracy and encourage them to access the new resources.

## Finding out more

Please email Mathematics at [Maths@qcaa.qld.edu.au](mailto:Maths@qcaa.qld.edu.au), or phone (07) 3864 0444.
