## Updated graphics and scientific calculator lists now available

### Purpose

To advise schools that the updated graphics and scientific calculator lists are available.

### Background

The QCAA graphics calculator and scientific calculator lists provide teachers and students with an up-to-date list of the types of calculators that may be used in a General Senior Syllabus summative external assessment that permits the use of a graphics or scientific calculator.

The lists identify:

- approved graphics and scientific calculators
- graphics calculators that are not permitted
- features that are permitted
- features that are not permitted
- instructions for use in external assessment.

### Information

The lists have been updated to include calculator models that were not available when the previous lists were published.

The graphics calculator list has been updated to include the Texas Instruments (TI) TI-Nspire CX II-T.

The scientific calculator list has been updated to include the Casio fx-82ES PLUS 2<sup>nd</sup> Edition and the Hewlett-Packard (HP) HP 10sii.

The updated lists can be found at:
