

Essential English marking guide and response

Common internal assessment 2023 — Phase 2

Short response

Assessment objectives

This assessment instrument is used to determine student achievement in the following objectives:

3. explain representations of identities, places, events and concepts in response to stimulus texts
4. explain the ways cultural assumptions, attitudes, values and beliefs about community, local or global issues underpin texts and influence meaning
5. explain how language features and text structures shape perspectives on community, local or global issues in media texts and invite particular responses
6. select and use subject matter to support perspectives in response to stimulus texts
9. use language features to inform audiences.

Note: Objectives 1, 2, 7 and 8 are not assessed in this instrument.

Purpose

This common internal assessment marking guide (CIAMG) informs schools and students how marks are matched to characteristics in responses to the common internal assessment.

The CIAMG provides:

- explicit statements about what is expected of students when they respond to a question
- sample responses that identify characteristics to assist the marker to make judgments
- where relevant, notes that provide further information to assist the marker in making a decision
- a tool for calibrating markers to ensure comparability of results.

Mark allocation

Where no response to the assessment has been made, a mark of 'N' will be recorded.

Question 2

The response, in *Knowledge application*:

- provides a **detailed** explanation of **one** point of view about human space exploration identified in the visual stimulus
- provides a **detailed** explanation of **another** point of view about human space exploration identified in the visual stimulus
- provides a **detailed** explanation of how **one** cultural assumption, attitude, value and/or belief identified in the visual stimulus influences meaning about human space exploration
- provides a **detailed** explanation of how **another** cultural assumption, attitude, value and/or belief identified in the visual stimulus influences meaning about human space exploration
- provides a **detailed** explanation of how **one** language feature identified in the visual stimulus influences meaning about human space exploration and invites particular responses
- provides a **detailed** explanation of how **another** language feature identified in the visual stimulus influences meaning about human space exploration and invites particular responses
- provides a **detailed** explanation of how **one** text structure identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- provides a **detailed** explanation of how **another** text structure identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses

- provides an **appropriate** explanation of **one** point of view about human space exploration identified in the visual stimulus
- provides an **appropriate** explanation of **another** point of view about human space exploration identified in the visual stimulus
- provides an **appropriate** explanation of how **one** cultural assumption, attitude, value and/or belief identified in the visual stimulus influences meaning about human space exploration
- provides an **appropriate** explanation of how **another** cultural assumption, attitude, value and/or belief identified in the visual stimulus influences meaning about human space exploration
- provides an **appropriate** explanation of how **one** language feature identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- provides an **appropriate** explanation of how **another** language feature identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- provides an **appropriate** explanation of how **one** text structure identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- provides an **appropriate** explanation of how **another** text structure identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses

- in the **main**, provides an explanation of **one** point of view about human space exploration identified in the visual stimulus
- in the **main**, provides an explanation of **another** point of view about human space exploration identified in the visual stimulus
- in the **main**, provides an explanation of how **one** cultural assumption, attitude, value and/or belief identified in the visual stimulus influences meaning about human space exploration
- in the **main**, provides an explanation of how **another** cultural assumption, attitude, value and/or belief identified in the visual stimulus influences meaning about human space exploration
- in the **main**, provides an explanation of how **one** language feature identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- in the **main**, provides an explanation of how **another** language feature identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- in the **main**, provides an explanation of how **one** text structure identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- in the **main**, provides an explanation of how **another** text structure identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses

- describes **some ideas** about **one** point of view about human space exploration in the visual stimulus
- describes **some ideas** about **another** point of view about human space exploration in the visual stimulus
- describes **some ideas** about **one** cultural assumption, attitude, value and/or belief about human space exploration in the visual stimulus
- describes **some ideas** about **another** cultural assumption, attitude, value and/or belief about human space exploration in the visual stimulus
- describes **some ideas** about how **one** language feature shapes perspectives about human space exploration
- describes **some ideas** about how **another** language feature shapes perspectives about human space exploration
- describes **some ideas** about how **one** text structure shapes perspectives about human space exploration
- describes **some ideas** about how **another** text structure shapes perspectives about human space exploration

- describes **some ideas** about cultural assumptions, attitudes, values and/or beliefs **OR** identifies a cultural assumption/s, attitude/s, value/s and/or belief/s
