

Essential English marking guide and response

Common internal assessment 2023 — Phase 3

Short response

Assessment objectives

This assessment instrument is used to determine student achievement in the following objectives:

3. explain representations of identities, places, events and concepts in response to stimulus texts
4. explain the ways cultural assumptions, attitudes, values and beliefs about community, local or global issues underpin texts and influence meaning
5. explain how language features and text structures shape perspectives on community, local or global issues in media texts and invite particular responses
6. select and use subject matter to support perspectives in response to stimulus texts
9. use language features to inform audiences.

Note: Objectives 1, 2, 7 and 8 are not assessed in this instrument.

Purpose

This common internal assessment marking guide (CIAMG) informs schools and students how marks are matched to characteristics in responses to the common internal assessment.

The CIAMG provides:

- explicit statements about what is expected of students when they respond to a question
- sample responses that identify characteristics to assist the marker to make judgments
- where relevant, notes that provide further information to assist the marker in making a decision
- a tool for calibrating markers to ensure comparability of results.

Mark allocation

Where no response to the assessment has been made, a mark of 'N' will be recorded.

Common internal assessment marking guide

Question 1

The response, in Knowledge application:

- provides a **detailed** explanation of **one** representation about human space exploration identified in the article
- provides a **detailed** representation of **another** representation about human space exploration identified in the article
- provides a **detailed** explanation of how **one** belief identified in the article influences meaning about human space exploration
- provides a **detailed** explanation of how **another** belief identified in the article influences meaning about human space exploration
- provides a **detailed** explanation of how **one** language feature identified in the article shapes perspectives about human space exploration and invites particular responses
- provides a **detailed** explanation of how **another** language feature identified in the article shapes perspectives about human space exploration and invites particular responses
- provides a **detailed** explanation of how **one** text structure identified in the article shapes perspectives about human space exploration and invites particular responses
- provides a **detailed** explanation of how **another** text structure identified in the article shapes perspectives about human space exploration and invites particular responses

The response, in Organisation and development:	The response, in Textual features:	Grade
	<ul style="list-style-type: none"> • purposefully selects information from the article to support perspectives • purposefully uses this information to support perspectives 	A
	<ul style="list-style-type: none"> • uses appropriate grammar and vocabulary, which may contain errors, but meaning is clear • uses appropriate punctuation, which may contain errors, but meaning is clear • uses appropriate spelling, which may contain errors, but meaning is clear 	
	<ul style="list-style-type: none"> • appropriately selects information from the article to support perspectives • appropriately uses this information to support perspectives 	B
	<ul style="list-style-type: none"> • uses appropriate grammar and vocabulary, which may contain errors, but meaning is mostly clear • uses appropriate punctuation, which may contain errors, but meaning is mostly clear • uses appropriate spelling, which may contain errors, but meaning is mostly clear 	
	<ul style="list-style-type: none"> • in the main, selects information from the article to support perspectives • in the main, uses this information to support perspectives 	C
	<ul style="list-style-type: none"> • in the main, uses appropriate grammar and vocabulary, which may contain errors, but meaning is mostly clear • in the main, uses appropriate punctuation, which may contain errors, but meaning is mostly clear • in the main, uses appropriate spelling, which may contain errors, but meaning is mostly clear 	
	<ul style="list-style-type: none"> • selects some information from the article to support some perspectives • uses some of this information to support some perspectives 	D

The response, in <i>Knowledge application</i> :	The response, in <i>Organisation and development</i> :	The response, in <i>Textual features</i> :	Grade
<ul style="list-style-type: none"> • describes some ideas about representations OR identifies a representation/s • describes some ideas about beliefs OR identifies a belief/s • describes some ideas about language features and/or text structures OR identifies a language feature/s or text structure/s • does not address another representation about human space exploration OR does not address any representations • does not address another belief about human space exploration OR does not address any beliefs • does not address another language feature about human space exploration OR does not address any language features • does not address another text structure about human space exploration OR does not address any text structures • does not satisfy any of the descriptors above. 	<ul style="list-style-type: none"> • selects some information to show some ideas • uses some of this information to show some ideas • OR • does not satisfy any of the descriptors above. 	<ul style="list-style-type: none"> • uses grammar and vocabulary with frequent errors and meaning is impeded • uses punctuation with frequent errors and meaning is impeded • uses spelling with frequent errors and meaning is impeded • OR • does not satisfy any of the descriptors above. 	E

Question 2

The response, in Knowledge application:

- provides a **detailed explanation** of **one** point of view about human space exploration identified in the visual stimulus
- provides a **detailed explanation** of **another** point of view about human space exploration identified in the visual stimulus
- provides a **detailed explanation** of how **one** cultural assumption, attitude, value and/or belief identified in the visual stimulus influences meaning about human space exploration
- provides a **detailed explanation** of how **another** cultural assumption, attitude, value and/or belief identified in the visual stimulus influences meaning about human space exploration
- provides a **detailed explanation** of how **one** language feature identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- provides a **detailed explanation** of how **another** language feature identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- provides a **detailed explanation** of how **one** text structure identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- provides a **detailed explanation** of how **another** text structure identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses

- provides an **appropriate explanation** of **one** point of view about human space exploration identified in the visual stimulus
- provides an **appropriate explanation** of **another** point of view about human space exploration identified in the visual stimulus
- provides an **appropriate explanation** of how **one** cultural assumption, attitude, value and/or belief identified in the visual stimulus influences meaning about human space exploration
- provides an **appropriate explanation** of how **another** cultural assumption, attitude, value and/or belief identified in the visual stimulus influences meaning about human space exploration
- provides an **appropriate explanation** of how **one** language feature identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- provides an **appropriate explanation** of how **another** language feature identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- provides an **appropriate explanation** of how **one** text structure identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
- provides an **appropriate explanation** of how **another** text structure identified in the visual stimulus shapes perspectives about human space exploration and invites particular responses
