Question and response book

# General Mathematics

## Paper 1

### Time allowed

- Perusal time — 5 minutes
- Working time — 90 minutes

### General instructions

- Answer all questions in this question and response book.
- QCAA-approved scientific calculator permitted.
- QCAA formula book provided.
- Planning paper will not be marked.

### Section 1 (15 marks)

- 15 multiple choice questions

### Section 2 (42 marks)

- 10 short response questions

**DO NOT WRITE ON THIS PAGE**  
**THIS PAGE WILL NOT BE MARKED**

# Section 1

## Instructions

- This section has 15 questions and is worth 15 marks.
- Use a 2B pencil to fill in the A, B, C or D answer bubble completely.
- Choose the best answer for Questions 1–15.
- If you change your mind or make a mistake, use an eraser to remove your response and fill in the new answer bubble completely.

	A	B	C	D
Example:	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	A	B	C	D
1.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
8.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
9.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
10.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
11.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
12.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
13.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
14.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
15.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Ensure you have filled an answer bubble for each question.

Do not write outside this box.

## Section 2

### Instructions

- Write using black or blue pen.
  - Questions worth more than one mark require mathematical reasoning and/or working to be shown to support answers.
  - If you need more space for a response, use the additional pages at the back of this book.
    - On the additional pages, write the question number you are responding to.
    - Cancel any incorrect response by ruling a single diagonal line through your work.
    - Write the page number of your alternative/additional response, i.e. See page ...
    - If you do not do this, your original response will be marked.
  - This section has 10 questions and is worth 42 marks.
- 

### QUESTION 16 (3 marks)

The number of seats in each row of a theatre forms the terms of the arithmetic sequence  $t_{n+1} = t_n + 8$ , where  $t_1 = 25$ .

- a) How many seats are in the second row of the theatre?

[1 mark]

---

---

---

- b) Complete the table and then calculate the total number of seats in the first four rows of the theatre.

[2 marks]

<b>Row</b>	1	2	3	4
<b>Number of seats</b>				

---

---

---

Do not write outside this box.

**QUESTION 17 (4 marks)**

A planar graph is shown.

a) Define *planar graph*.

[1 mark]

---

---

---

b) How many faces does the graph have?

[1 mark]

---

c) Show that Euler's formula works for the graph.

[2 marks]

---

---

---

---

---

Do not write outside this box.

**QUESTION 18 (4 marks)**

When a child is born, their parent deposits \$3000 to open an investment account earning interest at 4.2% p.a. compounding monthly. If there are no further transactions and the interest rate does not change, calculate the amount of interest earned by the child's 18th birthday.

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

Do not write outside this box.

### QUESTION 19 (4 marks)

The table shows data from a mobility test that counts the number of times a person can stand from a seated position in 30 seconds.

<b>Person's age (years)</b>	50	55	60	65	70	75	80	85	90
<b>Number of stands</b>	20	18	16	14	13	12	10	9	8

- a) Construct a scatterplot to display the data on the grid provided.

[3 marks]

**Note:** If you make a mistake in the scatterplot, cancel it by ruling a single diagonal line through your work and use the additional response space at the back of this question and response book.

- b) State the form of the relationship between the variables.

[1 mark]

---

Do not write outside this box.

**QUESTION 20 (4 marks)**

The graph shows the association between the air temperature,  $x$ , and the number of vehicles parked at a train station,  $y$ .

- a) Identify Pearson's correlation coefficient and use it to describe the strength of the association between  $x$  and  $y$ .

[2 marks]

---

---

---

It is suggested that the time of day,  $t$ , could be a confounding variable in this situation.

- b) Define *confounding variable*.

[1 mark]

---

---

- c) Explain why  $t$  could be a confounding variable in this situation.

[1 mark]

---

---

---

---

Do not write outside this box.

**QUESTION 21 (3 marks)**

A perpetuity earns interest quarterly at 5.2% p.a. and pays \$975 each quarter.

a) Determine the quarterly interest rate.

*[1 mark]*

---

---

---

---

b) Calculate the value of the perpetuity.

*[2 marks]*

---

---

---

---

---

---

Do not write outside this box.

**QUESTION 22 (6 marks)**

A reducing balance loan for \$15 000 has an interest rate of 8.4% p.a. calculated monthly with a \$250 repayment at the end of every month.

- a) Use the monthly interest rate to write a recurrence relation for the loan balance after  $n$  months. *[2 marks]*

---

---

---

---

- b) Calculate the loan balance after two months. *[1 mark]*

---

---

---

---

- c) Use the reduction in the loan balance and the total repayments to determine the amount of interest paid in the first two months. *[3 marks]*

---

---

---

---

---

---

---

---

Do not write outside this box.

**QUESTION 23 (4 marks)**

A pipeline network transports natural gas between eight towns (P–W). The length (km) of each pipeline is shown.

- a) On the diagram, draw the minimum spanning tree for the pipeline network. *[2 marks]*

**Note:** If you make a mistake in the diagram, cancel it by ruling a single diagonal line through your work and use the additional response space at the back of this question and response book.

- b) Use your response to Question 23a) to evaluate the reasonableness of 2000 km of pipeline being sufficient to transport natural gas to the eight towns. *[2 marks]*

---

---

---

---

---

---

---

Do not write outside this box.

**QUESTION 24 (5 marks)**

The graph represents six students (A–F). Each edge connects two students who study an identical subject.

- a) Construct an adjacency matrix from the graph with the vertices in alphabetical order. [2 marks]

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

- b) From the terms shown, identify all that describe the graph. [1 mark]

bipartite   connected   directed   simple   weighted

---

---

Do not write outside this box.

c) Identify all students who study an identical subject to student C.

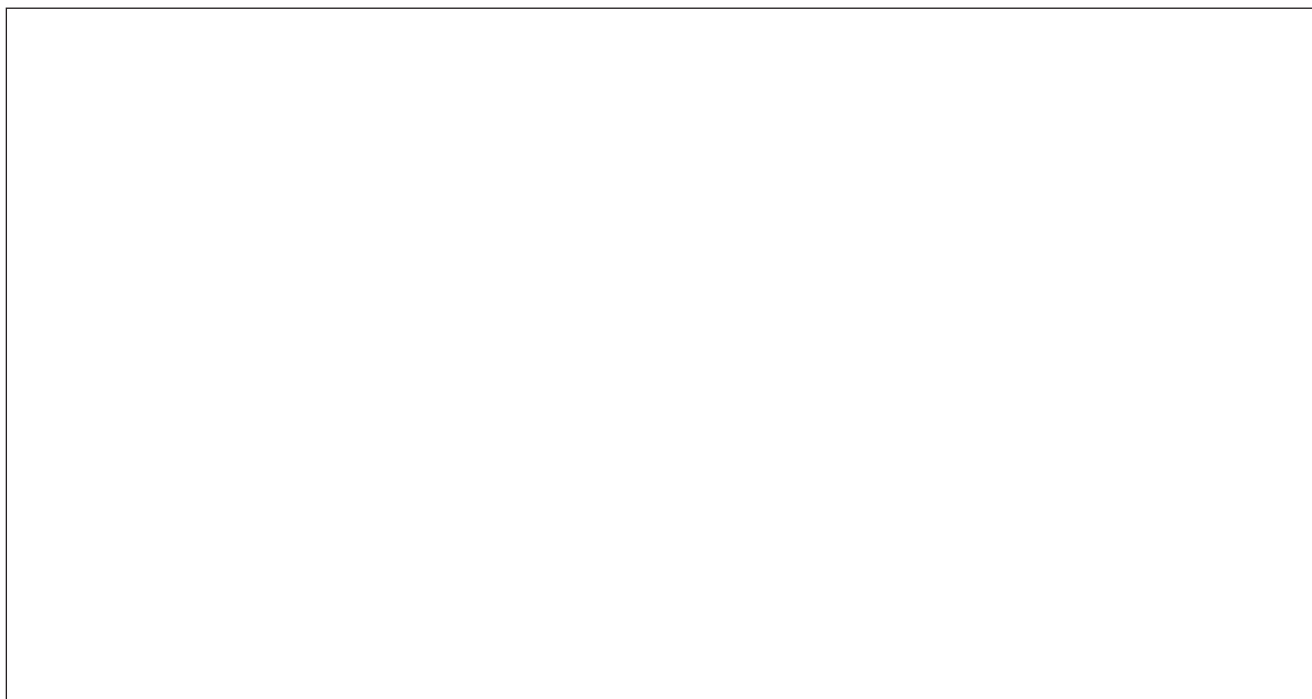

[1 mark]

---

---

d) Draw and label a connected subgraph that contains student E and has three edges and no cycles.

[1 mark]

**Note:** If you make a mistake in the diagram, cancel it by ruling a single diagonal line through your work and use the additional response space at the back of this question and response book.

Do not write outside this box.

**QUESTION 25 (5 marks)**

The table shows Darwin’s actual rainfall (mm) each season for two years.

	<b>2022</b>	<b>2023</b>
<b>Autumn</b>	410	390
<b>Winter</b>	30	20
<b>Spring</b>	205	150
<b>Summer</b>	1135	1100

- a) Calculate the seasonal index for each season in Darwin.

[3 marks]

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

Do not write outside this box.

This table shows Hobart's actual rainfall (mm) each season for 2023 and the long-term seasonal indices.

	Autumn	Winter	Spring	Summer
2023 rainfall (mm)	130	145	155	132
Seasonal index	0.92	1.02	1.12	0.94

- b) Deseasonalise the Hobart rainfall data to identify the 2023 season with the highest seasonally adjusted rainfall.

[2 marks]

---

---

---

---

---

---

---

**END OF PAPER**

Do not write outside this box.

**ADDITIONAL PAGE FOR STUDENT RESPONSES**

Write the question number you are responding to.

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

Do not write outside this box.

## **ADDITIONAL PAGE FOR STUDENT RESPONSES**

Write the question number you are responding to.

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

Do not write outside this box.

**ADDITIONAL PAGE FOR STUDENT RESPONSES**

Write the question number you are responding to.

Do not write outside this box.

**ADDITIONAL PAGE FOR STUDENT RESPONSES**

Write the question number you are responding to.

Do not write outside this box.

**ADDITIONAL PAGE FOR STUDENT RESPONSES**

Write the question number you are responding to.

A large grid of dashed lines, approximately 30 columns wide and 40 rows high, intended for students to write their responses to questions.

Do not write outside this box.

**ADDITIONAL RESPONSE SPACE FOR QUESTION 23**

If you want this diagram to be marked, rule a single diagonal line through your original response.

Do not write outside this box.
